

## EUCALYPTUS MICROTHECA COOLIBAH TREE

Coolibah is a fast-growing, evergreen shade tree from Australia. Due to its attractive foliage and relative hardiness it is commonly planted in the Southwest. Mature trees may reach 60' tall and wide as single or multi-trunked specimens. The lanceolate, blue-green leaves are 4 to 8 inches in length. Inconspicuous creamy white flowers are followed by woody capsules. Coolibah tolerates full sun, reflected heat, strong winds, drought, and most soil types. Hardy to 10°F. USDA Zone 7.

### AT A GLANCE SUMMARY

SIZE (H X W)	30-40 feet x 30-40 feet
FLOWER COLOR	White
FLOWER SEASON	Spring
EXPOSURE	Full Sun
WATER	Low
GROWTH RATE	Moderate to Fast
HARDINESS	10° F, USDA Zone 7
PRUNING	To Thin & Shape
