

LEUCOPHYLLUM LANGMANIAE 'LYNN'S LEGACY'

This selection of Texas sage was collected by Lynn Lowrey, a very special plantsman from east Texas. Lynn, who passed away in 1997, is a legend among botanists and plant collectors. With his usual discerning eye, Lynn picked out this clone for its profuse and frequent flower displays. 'Lynn's Legacy' grows slowly to about 5 feet tall and wide, with a dense, rounded form. Its green foliage is a wonderful backdrop for the lavender flowers. Compared to most selections of Texas sage, this clone is not as dependent on changes in relative humidity for flowering. This means that it blooms more often during the course of the summer than other selections. In fact, this clone is called 'Lynn's Everblooming' in Texas. In many ways, 'Lynn's Legacy' is very similar to Rio Bravo™, but grows more slowly and blooms more frequently. Hardy to 10° F, USDA Zone 8.

AT A GLANCE SUMMARY

SIZE (H X W)	5 feet x 5 feet
FLOWER COLOR	Lavender
FLOWER SEASON	Summer
EXPOSURE	Full sun
WATER	Low
GROWTH RATE	Moderate
HARDINESS	10° F, USDA Zone 8
PRUNING	Prune to shape
