

ACACIA BERLANDIERI GUAJILLO

This Chihuahuan native forms a large shrub or it can be trained into a small tree. The lacy, fern-like foliage offers a delicate, tropical appearance perfect for patios. The lush foliage hides small prickles along the branches. Clusters of small, creamy white puff-ball flowers are followed by wide, flattened seed pods. Extremely drought tolerant and capable of handling full and reflected sun, this is a great patio tree for the low desert environment. This plant is susceptible to wildlife damage while small and should be protected. Good drainage is essential.

AT A GLANCE SUMMARY

SIZE (H X W)	12 feet x 12 feet
FLOWER COLOR	Creamy White
FLOWER SEASON	Spring
EXPOSURE	Full Sun, Reflected Heat
WATER	Low to Moderate
GROWTH RATE	Moderate
HARDINESS	15° F, USDA Zone 8
PRUNING	Prune to shape, thinning afterwards
