

## LANTANA SPECIES 'NEW GOLD' NEW GOLD LANTANA

This evergreen groundcover forms a dense, compact mound of dark green foliage. Masses of bright gold flowers cover the plant throughout the warm months. This incredible Lantana tolerates full sun, reflected heat, smog, poor soil and drought. In Texas A&M field trials, 'New Gold' Lantana has been very hardy, to 10° F. Prune back any frost-damaged foliage in early spring. Lantana is susceptible to white flies and they should be controlled as needed. This selection is virtually seed free.

AT A GLANCE SUMMARY	
SIZE (H X W)	18 - 24 inches x 3 feet
FLOWER COLOR	Gold
FLOWER SEASON	Spring, Summer, early Fall
EXPOSURE	Full Sun, Reflected Heat
WATER	Low-Moderate
GROWTH RATE	Fast
