

LEUCOPHYLLUM LAEVIGATUM CHIHUAHUAN SAGE

This wonderful evergreen shrub has a loose, spiky form and small olive-green leaves. Its casual form makes it an ideal addition to native palettes. Periodically in the summer and fall, during periods of high humidity, it explodes with fragrant lavender flowers. A truly low maintenance plant, it only requires minor shaping in the spring. Plant in full sun and well-drained soils. Summer Snow®, a selection with refreshing white blossoms, has the same growth habits and cultural requirements as the more common lavender-flowering form.

AT A GLANCE SUMMARY	
SIZE (H X W)	4-6 feet x 5 feet
FLOWER COLOR	Lavender
FLOWER SEASON	Summer-Fall
EXPOSURE	Full Sun, Reflected Heat
WATER	Low
GROWTH RATE	Moderately Fast
