

PENSTEMON SPECTABILIS

Native to the chaparral zones of California and Baja at elevations below 6000 feet, this perennial grows in dry washes and recently disturbed areas. The large shiny green leaves have coarsely toothed margins. Showy blue-purple flower spikes attract hummingbirds from April through June. Plant in full sun and provide excellent drainage. It reseeds readily. Hardy to 0° F. USDA Zone 6.

AT A GLANCE SUMMARY

SIZE (H X W)	1 foot x 1 foot
FLOWER COLOR	Blue - Purple
FLOWER SEASON	Spring into Summer
EXPOSURE	Full Sun
WATER	Low
GROWTH RATE	Fast
HARDINESS	0° F, USDA Zone 6
PRUNING	Remove Spent Flowers
