

PENSTEMON WRIGHTII TEXAS ROSE, WRIGHT PENSTEMON

This species closely resembles Coral penstemon, although its form is more compact, with tall spikes topping out at 4 feet in height. Its intense orange-pink flowers really stand out in the landscape. Although it is relatively “new” to Arizona’s nursery trade, this Texas and Arizona native was a favorite in Europe before World War I! Texas rose is cold hardy to 0° F. USDA Zone 7.

AT A GLANCE SUMMARY	
SIZE (H X W)	1 foot x 1 foot
FLOWER COLOR	Orange - Pink
FLOWER SEASON	Spring
EXPOSURE	Full Sun
WATER	Low
GROWTH RATE	Fast
HARDINESS	0° F, USDA Zone 7
PRUNING	Remove Spent Flowers
