

PISTACIA X 'RED PUSH' RED PUSH PISTACHE

'Red Push' is a hybrid between *P. atlantica* and *P. integerrima*. This deciduous tree has a moderate growth rate, developing a broad, spreading form to 25 – 40' tall by 20 – 40' wide. The compound leaves have 10-16 leaflets, with a distinctive red color when they first emerge. The leaves mature to a medium green color, then provide another color display in the fall, changing to red, orange and yellow. Young trees may be a bit gawky, but become shapely with age. 'Red Push' is drought and cold tolerant, and can adapt to a wide variety of soils. Non-allergenic and long-lived, this is a tree that should be utilized more in the southwest as a street or lawn tree. Hardy to 0° F. USDA Zone 7.

AT A GLANCE SUMMARY

SIZE (H X W)	40 feet x 40 feet
FLOWER COLOR	Insignificant
EXPOSURE	Full sun
WATER	Moderate
GROWTH RATE	Slow
HARDINESS	0° F, USDA Zone 7
PRUNING	Prune to shape
