

PORTULACARIA AFRA MINIMA DWARF ELEPHANT FOOD

This new selection of Elephant Food we are growing performs great as a groundcover! Plants never grow above 6" tall, and are quite often even more prostrate. This nice little succulent has done quite well for us in the sun and shade. Good selection for containers or in the ground, Dwarf Elephant Food requires very little irrigation once established, usually just some supplemental water through the dry summer season.

AT A GLANCE SUMMARY	
SIZE (H X W)	3-6" Tall x 2-3' wide
FLOWER COLOR	Insignificant
FLOWER SEASON	None
EXPOSURE	Full sun to full shade
WATER	Low
