

TEUCRIUM FRUTICANS 'AZUREA' SHRUBBY GERMANDER

A native of the Mediterranean, this evergreen shrub has gorgeous silver, lance shaped foliage that responds well to shearing. For this reason, it is often used to create small formal hedges in knot gardens. If left untrimmed, most plants will not exceed 4 to 5 feet in size. Deep blue flowers cover the shrub from spring through fall. Plant in full sun or reflected heat and provide good drainage. Hardy to 20° F. USDA Zone 9.

AT A GLANCE SUMMARY

SIZE (H X W)	4 feet x 5 feet
